TO WHOM IT MAY CONCERN

This letter serves to confirm that we have been using the services of Marc Johnson of Its a Breeze for the past two years, to deliver the Colour Accounting course to the Tsogo Sun Entrepreneurs programme beneficiaries and found him to be professional, knowledgeable of the subject matter and accessible as a facilitator.

The beneficiaries of this enterprise and supplier development programme are diverse in their level of understanding the concept of Financial Management and the feedback they have given us is that they find the course easy to understand and that it has contributed positively to their growth as business people to the extent that they have been able to implement the lessons learnt from the course.

I personally sat through one of Marc's sessions and found him easy to understand with regards to the content of the course, I also found his use of the course material easy to follow.

We have recently confirmed our continued arrangement with Marc to be part of the service providers to facilitate courses for the programme's beneficiaries going forward – we have an intake of new beneficiaries annually and this forms part of our development curriculum.

I can confidently recommend Its a Breeze for the delivery of this important course for non-financial savvy individuals who need to understand accounting. The course simplifies accounting and makes it less intimidating.

Sincerely

Rebone Sesoko
